

WANT TO BE AS FAMOUS AS THE LANDMARKS WE HAVE BUILT? COME, JOIN US.

• Hotel Chola • LIC Building • Karumuttu Centre in Chennai • Pylon VTPS

Coromandel Engineering Company Limited is a 60-year old construction company of the USD 2 Billion Murugappa Group, one of India's oldest and respected business houses. We have pioneered several novel engineering techniques and were the first to introduce pre-engineered metal building systems in India. We have constructed several landmark buildings like the LIC on Anna Salai, Hotel Chola Sheraton and Premium Apartments in Chennai, among others. The Utility Building, Hotel Holiday Inn and Windsor Manor in Bangalore are other noteworthy landmarks built by us. We now have ambitious growth plans in construction and real estate development to be spearheaded by you in any of the following positions:

Construction Management Professionals (Sr. Managerial level)

Requirements: Graduate/Post graduate in Civil Engineering with 15 to 20 years experience in the construction industry • Should have independently handled project of Rs.10-15 crores • Should have monitored multiple projects of Rs. 5-15 crores • Should possess good leadership qualities, communication and presentation skills • Should have hands-on experience in MS Projects, MS Office and Internet.

Junior/Middle level Engineers

Requirements: B.E. (Civil) with 3 to 10 years experience or DCE with 7 to 10 years experience • Should be a dynamic and result oriented team player with a proven track record in industrial/commercial/residential construction.
